HOW NORTHFIELD VOTED

AT STATE ELECTION; G. O. P.

NOMINEES WELL SUPPORTED

It was a misty and rainy day in Northfield on election day, Tuesday, but that did not deter a large vote being cast by our citizens to the number of 770.

There had been no large political meetings held here but quiet work was being accomplished by the local Republican town committee under the leadership of George W. Carr. Local individuals were interested in the efforts of various candidates, both Republican and Democratic, but otherwise people did in a quiet way, their own thinking. Ensemble Pianists At Auditorium Saturday

Bruce and Rosalind Simonds, ensemble pianists of note, will present a recital under the auspices of Northfield Seminary at the Auditorium tomorrow evening (Saturday) at 8 p. m. Mr. and Mrs. Simonds are both professors at the Yale University School of Music, and there is a similarity in their training which makes for an unforced unity in their two-piano concert.

Both Mr. and Mrs. Simonds received Bachelor of Music degrees at Yale and both studied further under Vincent D'Indy of Paris and Matthay in London. The Hartford Courant says of them, "Brilliant and individual players as they are, their ensemble work is done with a delightful sympathy and understanding and they give a very fine interpretation of whatever they elect to play."

Among the press notices which the Simonds concert has merited is one from the Boston Herald. "The playing of these two pianists justly gave pleasure to their audience. Thoughtful, sensitive performance came from each, with many delicacies and felicities of phrase and tone, and with richness and variety of sonority. In their performance their was exquisite grace in phrasing and a consummate neatness of response from player to player."

JUST SIGHING

There is always someone sighin',
And there's lots of things, I know,
For a solemn cuss to sigh for,
If he likes his sighin' so.
But just sighin' isn't tryin',
And it's tryin' gits you where
There is little cause for sighin',
Once you're safely landed there.
I have knowed a heap of fellers
Who would set around and sigh
Just for want of things to sigh for,
And without a-knowin' why,
And I've seen some married couples
Settin' sighin' side by side,
She a-sighin' at his sighin',
He a-sighin' 'cause she sighed!
So we fare it, ever sighin',
Through the sunshine and the rain,
Sigh for sun and then for shadder,
But the gist of my refrain
Is that sighin' isn't tryin',
And it's tryin' gits you where
There is little cause for sighin',
Once you're safely landed there.

Annual Roll Call American Red Cross Begins This Friday

Today, Armistice Day, marks the beginning of the annual Red Cross Roll Call. The American

Red Cross has had a full, busy year in 1938, but the great appeal of this organization is that it does not live in the past so much

as in being ready for new emergency calls in any part of the country. Let any need beyond local ability to handle arise anywhere, and expert doctors and nurses and other workers will immediately hasten to the stricken area with adequate quantities of medical supplies, food and clothing, or whatever else shall meet the need.

Last year Northfield contributed the splendid sum of \$442.22 for this benevolent work, second largest of any township in Franklin county. The goal of \$500 is set for this year. To reach it twenty gifts of five dollars each are solicited. Four and a half dollars of every such gift remains in the county; only fifty cents goes to headquarters at Washington, D. C., for its nation-wide work.

Membership of one dollar and other gifts, large and small, may be entrusted to the authorized workers who will canvass the town between now and Thanksgiving. Or, if more convenient, remittances may be sent to the township chairman, A. P. Fitt, East Northfield. A personal receipt, a Red Cross button and a window sticker are given to every member and donor.

Senior Class Show Was Great Success

The play, "Home Again Harry" given by the members of the senior class of the high school in the town hall last Friday evening attracted an audience which completely filled the hall and gave expression to their approval of the splendid production and the parts so well taken. THE FLORENTINE LADY

Bring me the mirror Benvenuto made

Of gold and amethyst and polished jade,

And I will dress my hair so that my face

Fits like a picture in the mirror's space.

Last night he bragged of Venice when he came.

Once, after Naples, it was much the same.

I know his ways—so well—give me the glass

And I will change my hair and let it pass.

—By George O'Neill

APPRECIATION

I found a jewel in a mine,
So rough and so unsightly
That I was hasty to resign
A gem I held so lightly.
I little guessed a craftsman's hand
Would set its beauty gleaming.
So ill we mortals understand
Real loveliness and seeming!

For beggars' price I sold the stone
And now a monarch wears it.
Of ivory is made his throne;
A haughty princess shares it.
A pointed crown is on his brow,
My jewel set within it.
Oh, if I had my lost gem now
A kingdom might not win it!

IMPORTANT ITEMS

Foresters who have been about in the woods among the fallen timber say that many more birds are noticeable than usual. The increase of grubs and borers among the rotting brush is one reason, another the open makes them more visible.

Another bill has been filed for legislative consideration requiring that a Democrat running for a Republican nomination in a primary must carry beside his name on a ballot in the primary, the information of his party label. The same would be true of a Republican running for a Democratic nomination. The intent of the bill is to stop fooling the voters and thus enable one person to obtain both party nominations.

The recent storm has brought to the fore many facts. One is that a person may enter on another's land to recover his washed, drifted or blown away possessions without the accusation of a trespass.

The town of Wendell is facing a critical situation in its tax income as a result of the hurricane. If the debacle at Wendell Depot results in the loss of the power plant and values decreased on timber lands, the tax rate may become too great for the residents to assume. There is every reason to believe that Wendell is sorely perplexed over the situation.

The town of Dover, N. J., set a mighty fine example recently when war in Europe seemed imminent, to halt a minute in prayer for world peace. Mayor John Roach ordered the fire alarm sounded to signal all for the silence of all. Traffic halted, shops and offices stopped work.

The Western Massachusetts Musical Festival will be held in April at Amherst. Participated in by the public school musical organizations it will attract over 10,000 visitors. The State College will assist in its success.

Massachusetts law, acts of 1915 chapter 145, section 7, encourages the planting of trees on private property within twenty feet of the highway, by permitting the use of public funds for this purpose. The property owner must sign an agreement giving the town permission to plant and care for the trees.

President Roosevelt has been invited by Edward E. Cooney, president of the Chamber of Commerce and postmaster at Northampton to speak at the dedication of the Calvin Coolidge Memorial bridge on March 15, 1939.

The hotels of Massachusetts by unanimous vote of the members of the Hotel Association will pay fifty cents per room into a fund, established for the purpose of advertising the state and its advantages to tourists.

Dr. James L. McConaughy, president of Wesleyan, was the Republican nominee for Lieutenant Governor of Connecticut. He is well known in Northfield where he has participated in conferences for many years.

A possible union of the Presbyterian and Episcopal churches is being considered by both bodies. The subject will come up at the Presbyterian General Assembly in Cleveland in May and before the Episcopal church convention in Kansas City in 1940. If effected it would mean a church with 5,800,000 adherents and 3,100,000 members.

The greatest registration of voters ever recorded in the State was announced by the Director of the State Division of Elections. The total number of voters is 2,112,291. This is an increase of approximately 51,197 registered voters over the figures for the presidential year and elections of 1936.

More New Stamps

Postmaster Skilton announces that four new postage stamps of the presidential series will go on sale in December. They are the 24-cent Benjamin Harrison, 25-cent William McKinley, 30-cent Theodore Roosevelt and 50-cent William H. Taft. The colors of these four stamps are yet to be announced.

To Give Peace Talk

"Keep America Out of War" will be the subject of the address by Prof. Henry J. Cadbury, at the Armistice Peace rally this Friday evening at 8 p. m. at the parish hall of St. James Episcopal church at Greenfield. The meeting will be open to the public, with no admission charge, but a collection will be taken for expenses. There will be an opportunity for discussion after the address.

Doctor Cadbury is the vice-chairman of the Massachusetts committee to "Keep America Out of War." He is an active member of the Friends Service committee and has engaged in child-feeding in Europe for the Friends. He has been on the faculty of the Wesleyan Summer Peace institutes for several years, and is an authority in the field of Norwegian immigration to the United States.

Harmony Lodge Elects

Harmony Lodge of Masons held its annual meeting at the Masonic hall on Wednesday evening of last week and after transacting the usual business proceeded to elect its officers for the ensuing year. At The Latchis

"The Citadel," based on Dr. A. J. Cronin's best-selling novel, opens a three-day engagement Monday at the Latchis Memorial Theatre.

Robert Donat, distinguished English star portrays the role of the heroic young doctor in the Welsh colliery district, and Rosalind Russell, popular actress, is his co-star.

"The Citadel," is a story of the adventures in courage encountered by an obscure young physician and his school teacher bride in the coal mines. He rises to an exclusive society practice in London, forgets the high ethics of his craft, but is brought to his senses by the influence of his wife following a faulty operation on his best friend. Cronin devoted several years to practice in the colliery section and much of the novel was based on his experience.

David and Goliath

A Historic Battle Between
Brains and Brawn

Goliath was a Philistine tough in modern parlance, a great big bluff; He stood nine feet, six in his stocking-feet—A mountain of brawn that was hard to beat.

He wore a number forty shoe And had a ten-foot stride, So when he ran down the street, He made 'em the grown folks hide.

His spear was like a weaver's beam, His helmet it was brass, His coat of mail would sink a ship— There was no one in his class.

Little David was a shepherd boy, A comely lad was he; He tended sheep on Bethlehem's mount And sometimes on the lea.

David was a normal lad, He liked to have his fun— He was a dead shot with his sling, In his day they had no gun.

One day Father Jesse said to him, "The news of your brothers is very slim; Better take a basket of food and go Down to the war zone, and then we'll know."

"How's my brother, dear old Eliab, Hello, Shammah; Ah, there, Abinadab." The meeting was cordial, so it is said— But everywhere there seemed a feeling of dread.

The reason for this state of mind Was surely not very hard to find; For forty days Goliath, the Philistine champ, Had hurled his deft at Israel's camp.

David was made of the kind of stuff That was never known to take a bluff; So they told King Saul of this hill-billy lad Who willing to risk everything he had.

They dressed David in war's panoply But he threw it off, "because," said he, "I must choose my weapon—my faithful sling. I have faith in it that it's just the thing!"

His brothers sneered at David's nerve, Their hearts were full of qualms While David had his power reserve, His heart was full of psalms.

As in modern times, so the story teaches, Both fighters made the usual speeches; Each told the other what he would do "If ever I lay my hands on you!"

Goliath promised several feasts Off little David to the birds and beasts; While David promised when Goliath was dead To use his sword to cut off his head!

This made Goliath very mad He shook his fists and cursed Vowed he'd give David all he had— But, he didn't get there first!

From his little bag David took A smooth round pebble from the brook— "He slang it," so the story goes, And struck Goliath above the nose.

The "idea" struck Goliath between the eyes, Startled him, stunned him, put him wise, 'Twas David's idea and it made him sore, Such a thing had never entered his head before.

Down went Goliath for the "count of ten" A great big bulk of helpless man; 'Twas very evident he was "down and out" And that little David had won the bout. David ran and jumped on Goliath's neck,

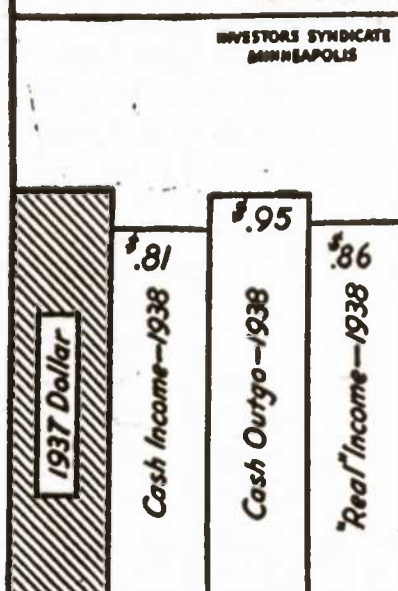

Drew his sword and quickly finished the wreck; That all might know, he held up the head; Then the Philistines knew their champ was dead.

And so Goliath "lost his head" And when the Philistines saw their champ was dead They also lost theirs and turned and fled As after them the Israelites sped.

The warriors were prompt to answer the call, They followed the Philistines one and all; They pursued their army till set of sun And received approval as a job well done.

But rather the size of the fight in the dog!

American Income Falls
14 Cents; Living Costs
Dip Five Cents In YearPURCHASING POWER
SEPTEMBER, 1938 Compared
with SEPTEMBER, 1937

THE above chart, showing how the average American fared in national income changes in the last twelve months, is based on the monthly consumers' study of Investors Syndicate, of Minneapolis.

Mr. and Mrs. Public in September had a "real income" of 86 cents, or a decline of 14 cents on the dollar from the same 1937 month. This "real income" is not a subtraction of cash income and expenditures, but an average relative of these figures designed to show how living costs affect adjusted income dollars.

Cash income of Mr. and Mrs. Public in September was 81 cents for every \$1 a year earlier. This decline of 19 cents on the dollar resulted from the following losses per dollar: wages 10 cents; salaries 10 cents; and investments income thirty-five cents. Other income was down thirteen cents on the dollar.

Rents were off two cents in September as compared with the same 1937 month. Food was down eight cents on the dollar; clothing was off seven cents; and miscellaneous items were down five cents.

The gentleman walked out of his New York club and called to the man in uniform who was standing in front. "Taxi" he directed.

The man in uniform looked surprised. "I'm sorry, sir," he stated, "but I'm not the doorman here, I'm a naval officer."

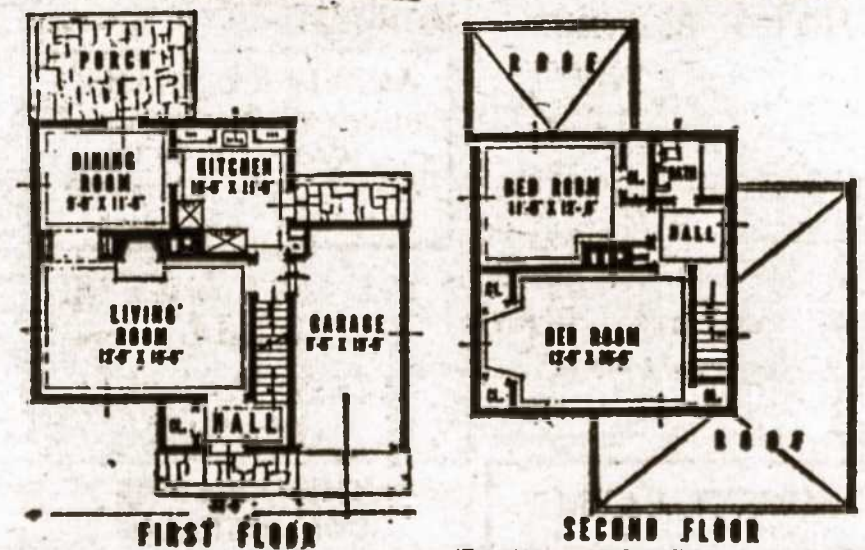

The gentleman cried: "All right then, get a boat. I've got to get home."

Tommy: Is it really lucky to have a black cat follow you?

Mr. Smith: Well, it all depends on whether you are a man or a mouse.

"I've just called to compliment you on your service," said the old lady to the postmaster. "Yesterday I received a telegram all the way from London and when I opened it, the gum on the envelope was still wet."

COLOR IS THE JEWELRY OF THIS SMALL HOUSE

Take a mind's-eye tour around—and through—this very complete small house.

First the outside. It has an inviting air, from the cherry-red door with its two bright "peep" windows to the rich blue-brown asphalt shingles on the roof.

Its designer, Randolph Evans, one of America's foremost small house architects — has exercised every charming ingenuity. For instance, he has given it greater breadth and nearness to the ground by using clapboards on the lower story and smooth siding on the upper. These strong horizontal bands carry the eye from side to side, instead of up and down, making the house seem wider and lower than it really is.

For this is really a "small" house. According to its sponsor, the Monthly Small House Club, 237 East 45th Street, New York, it contains barely 17,000 cubic feet and should build in most parts for about \$4,600.

But one gets no impression of smallness as he moves up the flagstone walk towards the handsome wood-grilled front porch, suggesting the romantic old balconies of New Orleans. It not only shelters the garage and the entry, forming a sort of porte-cochere, but it at-

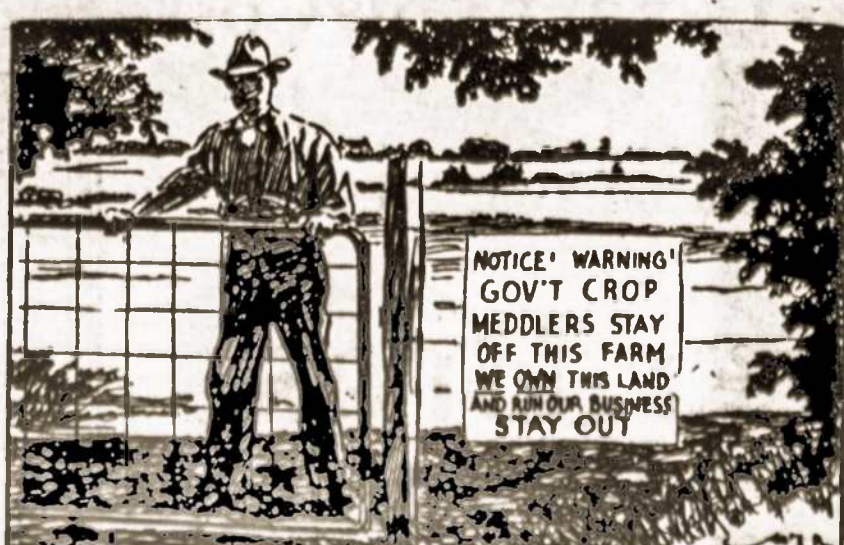

tractively frames the rich red of the front door.

For color is the jewelry of this house. The lower side walls are done in light beige-gray, the upper in white, forming a soft harmonious background for the shutters, painted to match the red door. As a crowning touch of color, and incidentally as an essential safety factor, the roof is covered with one of the new blue-brown blends of fire-resistant asphalt shingles, which protect it from over-dangerous roof sparks.

Inside the house is a small hall which opens into a comfortable living room. Beyond it, can be seen one corner of the dining room, which is reached through a deeply recessed doorway.

The second floor has two bedrooms, five closets and a bath. A third bedroom—if desired—can be added above the garage, connecting with the hallway near the head of the stairs.

This house is not only economical to build, but it is also economical to maintain—a fact that endears itself to every one. A four inch blanket of mineral wool insulation in side walls and second floor ceiling—effectively protects this house against both summer heat and winter cold and insures a substantial yearly fuel saving.
